“Transforming Biological Data into Actionable Insights”

Professional Summary

Interdisciplinary Genetic Engineering & Biotechnology undergraduate (4th year) at Shahjalal University of Science and Technology (SUST), combining computational biology with full-stack development and data science to build tools that make complex research accessible and reproducible. Proven expertise in designing automated RNA-seq/scRNA-seq pipelines, building bilingual educational platforms serving 200+ active users, and applying machine learning to real-world biological datasets. Competitive programmer (Codeforces 923) who reached the final round of a major university programming contest from a non-CS major. Passionate about bridging biology and technology to advance research and accessibility.

Education

2022–2027 **BSc in Genetic Engineering & Biotechnology**, *Shahjalal University of Science and Technology (SUST)*, Sylhet, Bangladesh
(Expected)

- Currently in **4th year** (2025–2026 academic session)
- Key Focus: Computational Biology, Bioinformatics, Data Analysis, Research Methodology
- Perfect score (100/100) in CSE114J — Introduction to Programming with Python Lab (Non-major CS course, taught by Eamin Sir, CSE Dept.)
- 1st Prize — SUST Quran Olympiad 2025 — 1st Prize — Hamd/Naat Competition 2025
- Secured 87th in SUST & 43rd in JnU in national GST admission test

Aug 2022 **Institute of Health Economics**, *University of Dhaka*, 5-month programme

- Developed foundational knowledge in public health economics and research methodologies

Professional Experience

Jul 2025–Present **Event Management Secretary**, *BINARY SUST*, Hybrid

- Coordinate 15+ university events annually (freshers reception, career programs) for 500+ attendees
- Manage logistics, vendor coordination, and strategic communications

Jun 2025–Present **Data Science Intern**, *CodeAlpha*, Remote

- Develop data analysis solutions using Python, Google Sheets, and statistical modeling
- Create automated data pipelines and conduct EDA to generate actionable business insights
- Design professional CV templates using LaTeX with AI-driven ATS optimization
- GitHub: github.com/ashiq-sm/codealpha_tasks

May 2024–Present **Campus Coordinator & Bioinformatics Specialist**, *Dawn of Bioinformatics Limited*, Remote

- Design and implement automated RNA-seq analysis workflows using R/Seurat for disease & drug discovery
- Generate publication-ready visualizations and mentor junior researchers on pipeline development
- Manage campus outreach and student engagement initiatives

- Oct 2023–Present **Active Member & Event Organizer**, *Student Aid SUST*, On-campus
- Contribute to organizing major university events: freshers reception, career insight programs
 - Assist in coordinating medical health camps and study tours for students
- Oct 2023–Present **Competitive Programmer**, *SUST ACM Student Chapter*, Hybrid
- Active competitive programmer; Codeforces rating: **923**
 - Reached the **final round** in “ShallBehacken presents Intra SUST Programming Competition 2024” from a non-CS major
 - LinkedIn post: lnkd.in/dQgPP2TK

Core Competencies

- Programming  Python, R, C++, Linux/Bash, LaTeX, Markdown
- Web Dev  HTML5, CSS3, JavaScript, Responsive Design, Git/GitHub, Vercel
- Bioinformatics  RNA-seq, scRNA-seq, Seurat, UMAP/PCA, Differential Expression Analysis
- Data Science  EDA, Statistical Modeling, Predictive Modeling, Machine Learning
- Tools  VS Code, Jupyter, Google Colab, Google Sheets, GitHub Actions
- Linux/OS  System optimization, BIOS tuning, virtual audio routing, dual-boot (Mint, Ubuntu, EndeavourOS)
- Research  Experimental Design, Publication-Quality Output, Technical Writing

Projects

- Jun 2025–Present **SM Ashikur Rahman — Personal Portfolio Website**, *Full-Stack Web Project*
- Built a modern, responsive portfolio website featuring glassmorphism UI, dark-forest bio-inspired design, animated profile frame with orbiting effects, and dynamic scroll animations
 - Integrated sections: About, Skills, Experience, OS Lab (system specs & optimization), Projects, Certifications, and Contact
 - Includes downloadable CV (PDF) attachment and GitHub-linked live deployment
 - Live: github.com/ashiq-sm/portfolio — Stack: HTML5, CSS3, JavaScript, GitHub Pages
- 2024–Present **SM NextGen BioNotes — Bilingual Educational Platform**, *SUST Campus Project*
- Designed and deployed a comprehensive bilingual (English/Bengali) study hub for GEB students at SUST
 - Serves **200+ active users** with 70% reported improvement in study efficiency
 - Features glass-morphic UI, dark mode, bookmarking, interactive course notebooks, and Vercel CI/CD
 - Stack: HTML5, CSS3, JavaScript, Markdown, Vercel
- Jul 2025–Present **Automated Single-Cell RNA Sequencing Analysis Pipeline**, *SUST Research*
- Developed comprehensive pipeline using R and Seurat for scRNA-seq analysis
 - Implemented QC, normalization, dimensionality reduction (PCA/UMAP), and clustering
 - Generated publication-ready visualizations and differential expression outputs
 - GitHub: github.com/ashiq-sm/scRNA-seq-analysis-with-seurat-and-R
- Jun 2025–Present **Iris Flower Classification — ML Implementation**, *CodeAlpha Internship*
- Applied data science methodology to a biological classification problem using Python
 - Implemented data preprocessing, feature engineering, and predictive modeling
 - GitHub: github.com/ashiq-sm/codealpha_tasks

Certifications & Achievements

- Apr 2025 **Linux for Bioinformatics Workshop**, *CHIRAL Bangladesh*
- Linux system administration for bioinformatics; RNA-Seq analysis for breast cancer case studies
- May 2025 **Data Analytics using AI**, *Sololearn*, Credential: CC-S26FCIO7
- Statistical analysis, predictive modeling, and AI-driven data interpretation

2025 **Digital Literacy Certification**, Score: 90%

- Comprehensive digital competency validated across modern computing environments

2023–2025 **Key Academic & Technical Highlights**

- **1st Prize** — SUST Quran Olympiad 2025 — **1st Prize** — Hamd/Naat Competition 2025
- **Perfect Score (100/100)** — CSE114J Python Lab (non-major CS course at SUST's IICT)
- **Final Round** — ShallBehacken Intra SUST Programming Competition 2024 (non-CS major)
- **13th Place** — NetCom AgentX AI Battle
- **Codeforces Rating: 923**

Languages & Interests

Languages **🇬🇧** Bangla (Native), English (Professional), Arabic (Elementary), Hindi/Urdu (Elementary)

OS Journey Ubuntu+Windows → Linux Mint 22.3 (Current, Cinnamon X11) → EndeavourOS (Planned, Arch)

Interests **📖** Reading, **♟️** Chess, **⚽** Sports, **💻** Linux/Tech, **🔗** Competitive Programming

Professional Development

Apr 2023–Present **Active Member**, *SUST Science Arena*

- Contribute to scientific discourse, knowledge sharing, and academic research events

Continuous Learning Active participation in technical workshops, online courses, and academic research communities. Ongoing self-driven projects in bioinformatics pipeline automation and web development.
