🏛️ Genetic Engineering & Biotechnology Department
Shahjalal University of Science and Technology (SUST)

*Dynamic and Quick Learner — Researcher — Data Analyst —
Problem Solver — Lifelong Learner*

Professional Summary

A dedicated Genetic Engineering and Biotechnology undergraduate with three years of comprehensive experience in programming and information technology. Demonstrates exceptional proficiency in Python programming and possesses strong analytical problem-solving capabilities. Expertise spans computer systems, Linux environments, and advanced data analysis methodologies. Committed to advancing research in bioinformatics through the application of machine learning and computational approaches. Demonstrated expertise in developing automated RNA-seq analysis pipelines and maintaining a strong professional network of 500+ connections.

Education

2022–2027 **BSc in Genetic Engineering & Biotechnology**, *Shahjalal University of Science and Technology (SUST), Sylhet, Bangladesh*
(Expected)

- Current Status: Enrolled
- Key Focus Areas: Computational Biology, Data Analysis, Research Methodology
- Notable Achievement: Perfect score (100/100) in CSE114J - Introduction to Programming with Python Lab
- 1st Prize - SUST Quran Olympiad 2025

Aug 2022 **Institute of Health Economics**, *University of Dhaka*, 5 months attendance

- Developed foundational knowledge in public health economics
- Acquired proficiency in Microsoft Office suite and online research methodologies

Professional Experience

Jul 2025–Present **Event Management Secretary**, *BINARY SUST*, Hybrid

- Managed event coordination and logistical planning for technology-focused campus events
- Developed and maintained organizational documentation using Google Sheets
- Conducted comprehensive online research to support event planning initiatives

Jun 2025–Present **Data Science Intern**, *CodeAlpha*, Remote

- Develop and implement machine learning models for biological data analysis
- Create efficient data processing pipelines for research applications
- Design professional CV templates using LaTeX and implement AI-driven content optimization
- Create automated CV generation systems using Markdown and LaTeX
- Collaborate with cross-functional teams to deliver analytical solutions
- Project available on GitHub: github.com/ashiq-sm/codealpha_tasks

May 2024–Present **Campus Coordinator**, *Dawn of Bioinformatics Limited*, Remote

- Facilitate bioinformatics training and workshop coordination
- Manage campus outreach programs and student engagement initiatives
- Provide technical support for bioinformatics software implementation

- Oct 2023–Present **Active Member, Student Aid SUST, On-campus**
- Contribute to organizing major university events including freshers reception and career insight programs
 - Assist in coordinating medical health camps and study tours
 - Collaborate with team members to ensure successful event execution
 - Develop organizational and event management skills
- Oct 2023–Present **Competitive Programmer, SUST ACM Student Chapter, Hybrid**
- Participate in advanced algorithm development and problem-solving sessions
 - Engage in competitive programming competitions and skill development
 - Reached the final round in "ShallBehacken presents Intra SUST Programming Competition 2024" from a non-CS major (LinkedIn: lnkd.in/dQgPP2TK)
 - Active Codeforces competitor (Rating: 923)

Core Competencies

- Programming  Python, R, Linux/Bash, LaTeX, Markdown
- Bioinformatics  Sequence Analysis, Omics Data Processing, Pipeline Development
- Data Science  Statistical Analysis, Predictive Modeling, Data Classification
- Development  Google Colab, VS Code, Jupyter Notebooks, Git
- Document Engineering  LaTeX Template Design, CV/Resume Automation, AI Content Optimization
- Analysis  Statistical Data Analysis, Dimensionality Reduction, Clustering Algorithms
- Research  Experimental Design, Publication-Quality Output Generation
- Additional  Technical Writing, Documentation, Professional CV Design

Projects

- Sep 2025–Present **Professional CV Generation System, Personal Project**
- Developed CV/Resume generation system using LaTeX and AI
 - Created professional CV templates with modern design principles
 - Implemented AI-driven content optimization for ATS compatibility
 - Built LinkedIn profile banner generator using LaTeX, TikZ, and Canva.
 - Technical Stack: LaTeX, Markdown, Python, AI content optimization
- Jul 2025–Present **Automated Single-Cell RNA Sequencing Analysis Pipeline, Shahjalal University of Science and Technology**
- Developed comprehensive analysis pipeline using R and Seurat packages
 - Implemented automated quality control, normalization, and dimensionality reduction
 - Designed adaptive algorithms for robust error handling and processing
 - Generated publication-ready visualizations and statistical outputs
 - Technical Stack: R, Seurat, PCA/UMAP, clustering algorithms, differential expression analysis
 - Available at: github.com/ashiq-sm/scRNA-seq-analysis-with-seurat-and-R
- Jun 2025–Present **Iris Flower Classification Project, Machine Learning Implementation**
- Applied standard data science methodologies to biological classification problem
 - Developed predictive models using machine learning techniques
 - Implemented comprehensive data preprocessing and feature engineering
 - Available at: github.com/ashiq-sm/codealpha_tasks

Technical Certifications & Achievements

- Apr 2025 **Linux for Bioinformatics Workshop, CHIRAL Bangladesh**
- Technical Focus: Linux system administration for bioinformatics workflows
 - Key Competencies: Command-line operations, data management, pipeline development
 - Practical Application: RNA-Seq analysis for breast cancer case studies

- May 2025 **Data Analytics using AI**, *Sololearn*, Credential ID: CC-S26FCIO7
- Skills Developed: Statistical analysis, predictive modeling, AI-driven data interpretation
 - Mastered analytical skills and data analysis methodologies
- 2025 **Digital Literacy Certification**, Score: 90%
- Demonstrated comprehensive digital competency across multiple platforms
 - Validated technical proficiency in modern computing environments
- 2023–2025 **Academic & Technical Achievements**
- First Place in SUST Quran Olympiad 2025
 - Perfect score (100/100) in CSE114J Programming Course (Python Lab)
 - Reached the final round in "ShallBehacken presents Intra SUST Programming Competition 2024" from a non-CS major
 - Codeforces rating: 923

Languages & Interests

Languages  Bangla (Native), English (Professional), Arabic (Elementary), Hindi (Elementary), Urdu (Elementary)

Interests  Books,  Chess,  Sports,  Technology,  Programming

Professional Development

- Oct 2023–Present **Competitive Programmer**, *SUST ACM Student Chapter*, Competitive Programming Training Camp
- Participated in advanced algorithm development and problem-solving sessions
 - Engaged in competitive programming competitions and skill development
- Apr 2023–Present **Active Member**, *SUST Science Arena*
- Contributed to scientific discourse and knowledge sharing
 - Participated in research collaboration and academic events
- Continuous Learning
- Regular participation in technical workshops and training sessions
 - Active involvement in academic and research communities
 - Ongoing development of programming and analytical capabilities
